Yeah, Matt is unavailable for the CAG. I'm trying to talk Ken Cameron (DEQ's field geologist overseeing the Arkema construction) to participate in the CAG mtg. Go ahead & sign me (Ken & I) up to talk about Arkema.

Jim

Jim - the CAG is looking for topics for next weeks meeting, and so far it looks pretty light. Would DEQ be interested in showing some pictures of ongoing work at upland sites, like Arkema, GASCO? We could talk about the bass fishing approach and status, let folks know about RM 11.
